The expenditure relating to the Municipal Women and Children's Dispensary at Conjeeveram is included in the expenditure shown against the Municipal Hospital, Conjeeveram.

CLASSES I AND II.—These include all institutions maintained by Provincial Funds and under Government management. The fact that an institution possesses endowments or receives contributions from *Local Funds* or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial Funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local Fund dispensaries include all institutions which are vested in Local Boards or Municipalities or guaranteed or maintained by Local or Municipal Funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a Local Fund dispensary so long as its existence is practically dependent upon Local Funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee but receiving aid from Government or Local Funds. This also includes subsidized dispensaries in rural areas.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries whether maintained by State railways or others.

XXVIII.—Vaccination.

Taluks and municipalities.	Number of persons successfully vaccinated.			Registered birth-rate per 1,000 of the population.			Average number of successful cases of vaccination on children under one year during the three years ending 1930-31.
